SUMMARY

Recent Data Science graduate from Assumption University (GPA: 3.85/4.0) with hands-on experience in data analysis, machine learning, and AI modeling. Proficient in Python, SQL, and BI tools, with a strong ability to transform raw data into actionable insights. Experienced in building predictive models, dashboards, and data pipelines to support business decision-making. Eager to contribute analytical skills to solve real-world problems.

EDUCATION AND CERTIFICATIONS

Bachelor of Science (Information Technology) <i>Assumption University of Thailand</i> Major: Data Science and Informatics GPA: 3.85/4.0	2022 – 2026
Google Data Analytics Professional Certificate	04/2024
DataCamp Data Analyst Associate	01/2026

EXPERIENCE

Workforce Analytics: Understanding Attrition Drivers <i>Python, Power BI</i> - Developed a 4-page Power BI dashboard analyzing workforce composition, salary equity, performance distribution, and attrition drivers across a 2M-record HR dataset - Translated raw HR data into actionable workforce insights including attrition segmentation by department and job level to support retention strategy	04/2026 – 04/2026
Bank Customer Churn Analysis & Retention Strategy <i>Python, Pandas, Seaborn, Matplotlib</i> Analyzed 10,000+ customer records using statistical testing and predictive modeling to identify key churn drivers (geography, activity status, age), enabling targeted retention strategies with 85% accuracy. Engineered features and built logistic regression model revealing 36% of high-value customers lack credit cards, directly informing upsell opportunities and risk mitigation initiatives.	04/2025 – 05/2025
Cyclistic - Marketing Strategy Analysis <i>Excel, Power Query</i> - Combined and analyzed 12 months of bike-share data to identify behavioral differences between casual riders and annual members. - Performed data cleaning, transformation, and feature engineering (ride duration, weekday trends, hourly usage).	05/2025

- Delivered actionable insights on customer behavior, increasing membership conversion through targeted marketing strategies.
- AUREX - Exam Paper Automation System06/2024 – 10/2024

Python, NLP, Scikit-learn, Sentence-BERT, Pandas, Flask

 - Developed a privacy-preserving system to automate exam paper generation for large university courses.
 - Reduced exam preparation time by 95% (from ~4 hours to ~10 minutes).
 - Built an end-to-end pipeline integrating Excel input, NLP-based duplicate detection, and automated Word document generation.

- Predictive Modeling for Movie Success Optimization01/2025 – 02/2025

Python, Pandas, Scikit-learn, Matplotlib, Seaborn, Power BI

 - Built machine learning models to predict movie revenue and ratings using 30,000+ records.
 - Designed automated data cleaning pipelines and feature engineering processes to improve model performance.
 - Developed interactive Power BI dashboards to visualize trends and support strategic decision-making.

AWARDS

- Academic Merit Scholarship, Assumption University of Thailand
- Full scholarship awarded for maintaining GPA ≥ 3.85
 - Received: Semester 2/2024, Semester 1/2025, Semester 2/2025

- President's Certificate of Honours, Assumption University of Thailand
- Awarded for achieving GPA ≥ 3.50 in an academic year
 - Received: Year 2, Year 3 and Year 4

- Outstanding Senior Project Award, Assumption University of Thailand
- Awarded to top 6 teams out of 56
 - Project: AUREX Exam Paper Automation System

SKILLS

Programming & Data — Python, SQL (MySQL, PostgreSQL), Pandas, NumPy

Data Analysis — EDA, Data Cleaning, Feature Engineering, Statistical Analysis

Machine Learning — Scikit-learn, Predictive Modeling

Visualization — Power BI, Tableau, Matplotlib, Seaborn

Tools & Technologies — GitHub, Agentic AI (Claude, Copilot)

Excel — Advanced (PivotTables, XLOOKUP, INDEX-MATCH, Power Query, DAX)

LANGUAGES

Burmese Native		Japanese JLPT N3 Certificate	
English Advanced		Thai Basic
